

Date: March 1, 2022
To: Salemtowne Residents, Family Members, Patients, and Team Members
From: Joe Yoon, VP of Health Care Services
Re: COVID Update

As the mask mandate ends on March 1st, Salemtowne will:

- Offer the option for Independent Living residents and guests to wear or not wear masks while indoors.
- Require that all team members, regardless of position or location continue to wear masks while indoors.
- Require that all residents, team members, families, visitors, guests, and vendors wear masks while in licensed areas, which include both the Babcock Health Care Center and Masten Assisted Living.

We continue to see the positivity rate decreasing as the rate has dropped to 9.6% for the period 2/9/22 – 2/22/22. Currently, we have one active COVID-19 case on campus.

As a reference, here are the total number of active cases on the Salemtowne campus.

Location	Team Members	Residents
Babcock Healthcare Center		
Garden Court	1	0
